

Welcome to the fifth advanced EASC course (A-EASC). This course builds on the award winning EASC courses which were first held in Donegal Ireland in 2012. EASC Courses have expanded around the World, and have been run in 12 countries and have been attended by over 1500 surgeons and residents. EASC is regarded by the majority of participants as one of the best courses they ever attended.

EASC curriculum focuses entirely on the acute abdomen, especially bowel and biliary emergencies. in a multidisciplinary shared learning approach. The course is an endorsed course of WSES with a reduced registration fee for members.

Course Objectives

- **Understand an optimal approach to complex emergency abdominal surgery cases**
- **Identify mistakes to be prevented**
- **Describe the latest advanced surgical techniques**

Who should attend ?-

Consultants and Fellows who want to be more confident in their care of emergency surgery patients. This course will change your practice.

Advanced EASC will make you think about what you do when you next on call as a Consultant and bring you all the latest updates combined with the faculty wealth of experience from around the World.

The format will focus on short lectures and longer case discussions exploring dilemmas we all face at the coal face of Emergency Surgery.
