Matti Tolonen Finland  
George Velmahos USA  
Carol-Ann Walker Ireland  
Dieter Weber Australia  
Neil Welch UK  
Des Winter Ireland  
Saqib Zeeshan Ireland

**Welcome** to the third *virtual* advanced EASC course (aEASC). This course builds on the award winning EASC course which was first held in Donegal Ireland in 2012. EASC Courses have expanded around the World, and are now run in 11 countries and have been attended by over 1000 surgeons and residents. EASC is regarded by the majority of participants as one of the best courses they ever attended.

Advanced EASC curriculum focuses entirely on the acute abdomen, in a multidisciplinary shared learning approach. The course is endorsed by many societies. It is constantly updated with the latest advances in Emergency Surgery Care. The first aEASC was held in Mangalore in 2020 and because of Covid we have moved to a virtual platform.

#### **Course Goals**

- **Complex emergency surgery cases**
- **Identify mistakes that can be made**
- **Discuss advanced surgical techniques**
- **Changes you need in your practice**

#### **Who should attend ?-**

**Consultants and Fellows who want to be more confident in their care of emergency surgery patients**

Donegal Clinical Research Academy would like to thank RCSI, WSACS and WSES and in particular the many faculty over the years for their support. Also, the SEUPB through the Centre for Personalised Medicine and Emergency Surgery Cluster are supporting and advancing Emergency Surgery Care.

Michael Sugrue
