

Welcome to the Emergency Abdominal Surgery Course. The first EaSC was held in Letterkenny Donegal in May 2012 and this is the third course in Greece. This course builds on its success and is further enhanced by an international faculty who are leaders in Emergency Surgery.

EaSC has evolved into a world leading course in Emergency Abdominal Surgery. EaSC curriculum focuses on the acute abdomen, in a multidisciplinary shared learning approach. It will bring you a level of discussion you have not heard before and enhance your ability on-duty as a

- surgeon,
- gastroenterologist
- radiologist
- emergency physician

either as a trainee or a specialist. This course is about decision making in patient and common emergencies. The course is endorsed by many societies. It is constantly updated with the latest advances in Emergency Surgery Care.

Course Goals

Understanding the natural history of emergency surgery diseases with key presentations emphasising on:

- *decision making and*
- *operative/intervention/imaging tips and traps to optimise outcome.*

This coupled with a

- ✓ *manual containing lectures and the*
- ✓ *latest literature abstracts*

will ensure your patients are getting optimal outcomes.

Who should attend ?

If you treat or manage a patient with an acute abdomen this course is a must for you!

Donegal Clinical Research Academy would like to thank the Colleges, Trade and RCSI in particular for their support and the sponsors without whom we could not share this course with you.
